PRESS OF G. M. BILLINGS.

PREFACE.

This committee, which is the fourth committee to undertake the publication of the fourth statistical pamphlet of the Milford High School Graduates' Association, has finally completed the work. Neither time nor labor has been spared to make these records complete and accurate. The amount of labor involved in the compilation of the information can be appreciated only by those who have had a share in the work.

Our only regret is that so many of our members have not sufficient pride in their Alma Mater to give us the information requested. Three and four questionnaires were sent to some graduates, but in vain. Accordingly, the information has been secured as accurately as possible from outsiders. A star before a name shows that no reply was received and indicates a doubt of the correctness of the record. If any graduates can furnish corrections or additional facts the secretary will be pleased to receive them.

To the many loyal graduates of the Milford High School we extend our appreciation and gratitude for their courtesy in responding to the questionnaires. For your generous and willing contributions we are grateful.
